

Corrections

The article titled "Birth defects in infants of diabetic mothers: A historical review" by John W. Hare (*Insulin*. 2009;4:169–176) contained an error. Joslin is misspelled (Joselin) in the permission lines of both the Figure and Table I.

The article titled "Metabolic surgery for type 2 diabetes mellitus" by Jonathan Klonsky and Michel M. Murr (*Insulin*. 2009;4:136–143) contained an error. In the Conclusions and Future Directions section (page 141), sentence 1 should read: "Gastrointestinal surgery for severe obesity (BMI ≥ 40 kg/m²) and in carefully selected, moderately obese patients (BMI 35–39 kg/m²) is an effective treatment for type 2 DM and the metabolic syndrome."
