

## A NOTE OF THANKS

Peer review is the lifeblood of scientific publishing. To maintain the highest standards for the content of manuscripts published in *Insulin*, we seek independent reviewers from the faculties of medical schools and schools of pharmacy worldwide. Not only are our reviewers asked to provide in-depth reviews, but they are asked to do so within a short period of time.

*Insulin* wishes to thank the following individuals for sharing their time and expertise in our ongoing effort to strengthen the peer-review process: Hussein Abdullatif, MD; Mousumi Bose, PhD; Todd M.
